OUR SERVICES ARE DESIGNED SO YOU CAN INFLUENCE MEDICAL CARE, CLAIMS COSTS, RETURN-TO-WORK OUTCOMES, AND EMPLOYEE SATISFACTION AT THE EARLIEST, MOST CRITICAL POINT.

In today's world, Companies are faced with many challenges in how to accomplish business every day. Due to COVID-19, adapting to virtual changes may be our future. *ICS has a long-standing corporate philosophy of embracing professional staff working from their home-based office that is supported and*

and maintained through its state-of-the-art technology and Cloud Server. We specialize in applying advanced communication and information technology to improve healthcare management for Workers' Compensation, Auto, Liability claims.

Telephonic Case Management - Virtual Support When You Need It

Case management is a complex process that requires the collection and integration of data concerning patients, payers, employers, providers and other parties. ICS recruits experienced Nurses that are rooted in their community, understand the local medical providers and shades of geographical difference. We are involved with every aspect of getting employees back to work using our multi-level case management program for managing the coordination of medical care and meeting full recovery and return-to-work objectives.

ICS helps our clients realize significant bottom line savings as a result of our highly experienced technical staff, ability to adapt quickly to situational changes, and our commitment to staying current with the latest industry information and advances in technology.

- ✓ **Reduced Claim Costs & Lost Time Severity Ratios**
- ✓ **Improved Advocacy & Goodwill**
- ✓ **Increased ROI**
